

CSA Staff Notice 23-317

Order Protection Rule: Market Share Threshold for the period April 1, 2017 to March 31, 2018

January 30, 2017

Introduction

On June 20, 2016, the Canadian Securities Administrators (the **CSA** or **we**) published a notice¹ (the **2016 Notice**) regarding the implementation of the market share threshold. The 2016 Notice included the list of protected and unprotected marketplaces for the period October 1, 2016 to March 31, 2017.

In the 2016 Notice we indicated that, in early 2017, the market share of each marketplace will be recalculated based on trading data from the first to last trading day of 2016, and we will publish an updated list of protected and unprotected marketplaces in January 2017. The updated list will be in effect from April 1, 2017 to March 31, 2018.

Purpose

The purpose of this notice is to provide the list of marketplaces that display protected orders (**protected marketplaces**) and marketplaces whose orders will not be protected (**unprotected marketplaces**) for the purposes of National Instrument 23-101 *Trading Rules* (**NI 23-101**) and the order protection rule (**OPR**) for the period April 1, 2017 to March 31, 2018 because they do not:

- (i) provide automated trading functionality as they have an intentional order processing delay, and/or
- (ii) meet the market share threshold.

The market share threshold has been set at 2.5%.²

¹ CSA Staff Notice 23-316 Order Protection Rule: Implementation of the Market Share Threshold and Amendments to Companion Policy 23-101 *Trading Rules*.

² CSA Staff Notice 23-316 includes a description of the calculation of the market share threshold.

OPR Requirements

Section 6.1 of NI 23-101 requires marketplaces to establish, maintain and ensure compliance with policies and procedures that are reasonably designed to prevent trade-throughs of better priced protected bids and offers. Section 6.4 of NI 23-101 imposes the same requirement on marketplace participants that assume responsibility for compliance with OPR by entering directed-action orders.

Section 1.1 of NI 23-101 defines protected bids and offers as bids and offers displayed on a marketplace offering automated trading functionality, and about which information is provided to an information processor.

Section 1.1.2.1 of Companion Policy 23-101 *Trading Rules* outlines the circumstances in which a marketplace that introduced an intentional order processing delay would not be considered to be providing automated trading functionality. In those circumstances, the orders on that marketplace would not be protected.

Orders on “dark” marketplaces are not protected as they are not displayed. Therefore, orders on ICX, LiquidNet, MatchNow and Nasdaq CXD are unprotected for the purposes of OPR.³

List of Protected and Unprotected Marketplaces

Below we have listed the protected and unprotected marketplaces.
