II. Opening New Accounts

Introduction

To comply with the "Know-Your-Client" rule each Dealer Member must establish procedures to maintain accurate and complete information on each client. The first step towards compliance with this rule is completing proper documentation when opening new accounts. Accurate completion of the documentation when opening a new account allows both the ~~registered representative~~Registered Representative and the supervisory staff to conduct the necessary review to ensure that recommendations made for any account are appropriate for the client and in keeping with his investment objectives. Maintaining accurate and current documentation will allow the ~~registered representative~~Registered Representative and the supervisory staff to ensure that all recommendations made for any account are appropriate for the client and in keeping with the client's investment objectives.

"Know-Your-Client" procedures must also be directed at meeting a Dealer Member's gatekeeper obligations by identifying clients that present a high risk of conducting improper activities in the securities markets. For example, if a Dealer Member is concerned about a client's reputation, the Dealer Member must make all reasonable inquiries to resolve the concern. This includes making a reasonable effort to determine, for example, the nature of the client's business. Dealer Members should refuse to accept instructions from clients who, in the Dealer Member's judgment, are engaged in illegal, unfair or abusive trading activities. "Know-Your-Client" procedures must also meet the requirements of anti-money laundering and terrorist financial legislation and regulations.

A. Documentation

1. ~~A New Account Application Form (NAAF) must be completed for each new account. Such forms shall be duly completed to conform with the "Know-Your-Client" rule.~~

A Dealer Member can meet this requirement by maintaining the information on the application in an electronic application accessible to the Registered Representative.~~
5. ~~The registered representative Registered Representative must update the NAAF information on the application where there is a material change in client information. Such The update must be approved in the manner provided in paragraph (2) subsection A.2. A Dealer Member must restrict the access of Registered Representatives and other persons to its electronic systems for maintaining know-your-client information so that material information cannot be changed without the required approval. III. Branch Office Account Supervision Generally

Introduction

~~Each branch manager must undertake certain activities within the branch for purposes of assessing compliance with regulatory requirements and the Dealer Member's policies. These activities should be designed to identify failures to adhere to required policy and procedure and provide a means of revealing and addressing undesirable account activity.~~

A. Daily Reviews

1. ~~_____The branch manager (or designate) must review the previous day's trading using any convenient means. This review is undertaken to attempt to detect the following:~~

Rule 38.1 requires a Dealer Member to implement systems of supervision and control to ensure that is reasonably designed to achieve compliance with the Rules and Rulings of the Corporation and all other laws, regulations and policies applicable to the Dealer Member's securities and commodity futures business. This section provides guidance on the means used by Dealer Members to meet that requirement with respect to retail customer accounts.

A. Supervisory Structure

1. In maintaining a supervisory structure and appointing Supervisors, a Dealer Member must take into consideration all factors necessary to ensure the adequacy of the supervision, including the products traded, type of trading, location of business and other functions of Supervisors.
2. Where the Dealer Member conducts retail business in business locations outside its Head Office, it should consider the following:

- A resident Supervisor is in the best position to know the Registered Representatives in the office, know or meet many of the clients, understand local conditions and needs, facilitate business through the timely approval of new accounts and respond immediately to questions or problems. However, a Dealer Member may determine to what extent a resident Supervisor is necessary, considering factors such as:

- The number of Registered Representatives in the location
- The experience of Registered Representatives in the location
- The nature of the business conducted in the location
- The availability of a Supervisor or Supervisors in nearby locations
- Other systems and controls mitigating the risk of remote supervision

- Where a business location does not have a Supervisor working in the office, it must have an outside Supervisor assigned to it. A Dealer Member's policies and procedures and the instructions to the outside Supervisor must include provision for periodic visits to the location by the Supervisor as necessary to ensure that business is being conducted properly at the location.

3. While it is not always possible in a very small firm, a Dealer Member should ensure independent supervision of all retail accounts. A Supervisor's advice and trades for his or her own clients should be supervised by another Supervisor.

4. A Dealer Member must ensure that a Supervisor who advises and trades for his or her own clients devotes sufficient time and attention to his or her supervisory role.
5. A Dealer Member must ensure that Supervisors are qualified to supervise trading activity in all products traded by those under his or her supervision and any other services that they provide to Retail Customers. Where the Supervisor is not so qualified, the Dealer Member may divide the supervision between two or more Supervisors, but must ensure that there are appropriate mechanisms for them to communicate with one another, that the system ensures that the Dealer Member maintains an overall view of the client's situation and activity and that the assignment of responsibilities is clear and complete. One acceptable mechanism for doing so is the appointment of a primary Supervisor to whom the other Supervisor(s) provide advice with regard to the activity in the products or services the primary Supervisor is not qualified to supervise.
6. A Dealer Member's supervisory system must provide Supervisors with the information necessary to properly conduct their supervision. For account reviews this includes readily accessible client information and full information about account activity including relevant non-trade activity such as receipts, deliveries, deposits, withdrawals and journal entries.
7. A Dealer Member's supervisory system must provide for back-up during the absence of responsible Supervisors. For any prolonged absence of a Supervisor, the back-up Supervisor should be advised as necessary of any ongoing issues or concerns as necessary to provide proper supervision.
8. A Dealer Member must have systems of supervision and review to ensure that Supervisors are properly fulfilling their supervisory functions. This requirement can be met by a two-tiered system of first and second level reviews as described in this policy.
9. A Supervisor must have sufficient authority to take effective and timely remedial action where account activity or any other matter under his or her supervision falls or appears to fall outside the bounds of proper conduct, just and equitable principles of trade or good business practice. Escalation for a decision by a more senior Supervisor or Executive will be considered an acceptable form of action.

B. Supervision of Account Activity

A Dealer Member must have systems and procedures to supervise trading activity in retail accounts. The supervision must provide reasonable assurance that the Dealer Member is meeting its regulatory obligations, including those to clients such as suitability and gatekeeper obligations such as preventing market abuses. The following principles should be taken into consideration:

1. Reviews may be conducted on a pre-trade or post-trade basis. A properly crafted pre-trade review process may obviate or lessen the need for post-trade reviews.
2. Review procedures must cover all accounts. Where a Dealer Member offers both commission and fee-based accounts, it cannot select accounts for review solely on the basis of commission levels; it must also have a procedure for selecting fee-based accounts for review.
3. Reviews procedures must be able to identify patterns of activity that are not apparent by reviewing trades singly. For example, a review of trading over a longer period may raise questions about the overall level of activity even though each trade, looked at singly, appears to be suitable for the client.
4. Reviews must encompass non-trade issues such as late payment, margin problems, trade cancellations or transfers and flows of funds or securities that might be suspicious of money laundering.
5. The selection of activity for post-trade review may be done using a risk-based approach reasonably designed to detect improper activity. A risk-based approach can be used to determine the period of activity to be reviewed. For example, in some cases it may be appropriate to conduct longer-term reviews of monthly activity; in others they may consider shorter or longer periods.
6. Reviews must take into consideration, and reviewers must have access to, information about customers that may reasonably be assessed as presenting a higher risk of improper market activity such as those known by the Dealer Member to have access to material non-public information about issuers, holders of control blocks of public issuers and market professionals.
7. All account activity of employees and agents should be subject to review.

8. Reviews must be done on a timely basis, as established in the Dealer Member's policies and procedures. The timing should be reasonably designed to identify as early as possible matters requiring supervisory attention.

9. It is acceptable to use computer analysis to assist in selecting activity to be reviewed.

IV. Two-Tier Reviews

In a Dealer Member with multiple business locations conducting Retail Customer account activity, a two-tier system of post-trade activity reviews as described in this section is an acceptable structure.

The first level review will normally be conducted by a Supervisor at each business location having a resident Supervisor. Such reviews may also be carried out on a regional basis or at a Dealer Member's head office provided that the systems and resources to conduct the review are available at the regional or head office and that the Dealer Member has adequate systems and procedures for dealing with any issues identified.

The second-tier review will normally be conducted at the Dealer Member's Head Office, but may also be done regionally. The second level of supervision is generally not at the same depth as first level supervision. It should and be reasonably designed to identify serious account problems, including all those listed regarding first level reviews, that may have been missed by the first level supervision and ensure that first level supervision is being adequately conducted.

Where second level reviews are conducted by personnel or a department responsible only for monitoring activity, the Dealer Member should have procedures for referring issues that cannot be resolved with first level Supervisors to a higher level Supervisor who has the authority to resolve them.

A. First-Tier Daily Reviews

A first-tier review examines the previous day's trading using means described in the Dealer Member's procedures to attempt to detect the following:

- lack of suitability; unsuitable trading;
- undue concentration of securities in a single account or across accounts;

- excessive / improper crosses of securities between clients;
- improper employee trading;
- front running;

2. In addition to transactional activity, branch managers must also keep themselves informed as to other client related matters such as:

- client complaints;
- cash account violations;
- undisclosed short sales;
 - transfers of funds and securities between unrelated accounts or between pro and client accounts or deposits from pro to client accounts
- manipulative or deceptive trading under margin;
- insider trading.

B. First-Tier Monthly Reviews

1. Client and branch personnel A first-tier monthly statements must be reviewed on a monthly basis and review should encompass the areas of concern as discussed in the described in subsection IV.A for daily activity review reviews.
2. It is recognized that it may not be possible to review each statement produced. However, branch managers must review all monthly statements which produce A first-tier monthly review starts with the selection, on a basis reasonably designed to detect improper account activity, of Retail Customer accounts to be reviewed. A Dealer Member can meet this obligation by reviewing the activity of all customers charged gross commissions of \$1,500 or more for the month.
3. All non-client accounts generating a statement must be reviewed on a monthly basis.
3. A first-tier monthly review should include all non-client accounts showing any activity other than receipt of dividends or interest or payment of interest.
4. This review should be completed within 21 days of the period covered by the statement unless precluded by unusual circumstances.

**MINIMUM STANDARDS FOR INSTITUTIONAL CUSTOMER ACCOUNT OPENING,

This Rule covers the opening, operation and supervision of ~~institutional~~Institutional Customer accounts, which are accounts for investors that are not individuals who meet the requirements of the definition herein.

Adherence to the minimum standards requires that a Dealer Member have in place procedures to properly open and operate ~~institutional~~Institutional Customer accounts and monitor their activity. Following these minimum standards, however, does not:

- (a) relieve a Dealer Member from complying with specific SRO by-laws, rules, regulations and policies and securities or other legislation applicable to particular trades or accounts; (e.g. best execution obligation, restrictions on short selling, order designations and identifiers, exposure of customer orders, trade disclosures);
- (b) relieve a Dealer Member from the obligation to impose higher standards where circumstances clearly dictate the necessity to do so to ensure proper supervision; or
- (c) preclude a Dealer Member from establishing higher standards.

GUIDELINES FOR THE CONTINUING EDUCATION PROGRAM

INTRODUCTION

This part of Rule 2900, Part III sets guidelines for continuing acceptable education course content, length and rigour which each Dealer Member must comply with if practicable. The guidelines also recommend a process to aid firms in identifying appropriate suppliers and courses.

Dealer Members are not authorized to determine courses eligible for Voluntary Participation, as set out in Part G of this Rule.

The parameters and guidelines should be considered in the context of what is appropriate to the individual, his or her position and responsibilities, and the needs of the firm. This can best be accomplished by each firm allocating responsibility to a single person for defining training needs and appropriate programs to address them. Depending on the firm, some responsibility for approval of an individual's program may be delegated to the appropriate supervisor.

As part of the audit process, the Corporation will review a firm's continuing education program to ensure that it is properly documented and satisfies the guidelines.

THE COMPLIANCE COURSE

A. BASIC PRINCIPLES

1. The Rule requires that certain ~~approved persons~~Approved Persons successfully complete the compliance course within each three-year CE cycle. To determine which ~~approved persons~~Approved Persons are required to take the course, please refer to the Rule itself.
2. A Dealer Member can choose to develop and deliver a compliance course, which reflects its own assessment of its current needs and priorities, or it may purchase a compliance course from an external provider. Alternatively, Dealer Members may offer a combination of both.
3. Compliance courses completed by branch managers, sales managers and others in a supervisory position should reflect their additional responsibilities.
4. The Dealer Member must maintain a record of successful completion of the compliance course.
5. As part of the audit process, the Corporation will review Dealer Member-developed compliance courses to ensure they satisfy the Guidelines.
6. If the compliance course program includes an examination, this examination must be successfully completed in order for the course to be applied towards the individual's Compliance requirement.
7. Seminars that support other courses, or preparatory courses that support a course or examination, do not qualify separately for CE credit. The course or examination they support must be successfully completed in order to complete the CE requirement and the support or preparatory course hours may then be included in determining the duration of the total course. The CE credits for the preparatory course must be counted towards the same requirement (Compliance or Professional Development) as the applicable course and must be counted in the same CE Cycle.
8. A Participant who sits on a committee or council of the Corporation, or who teaches a financial course may receive CE credits provided the member firm determines that the issues dealt with are relevant. The member firm may determine the amount of time applicable towards CE Compliance credits.
9. Foreign courses that have a compliance portion can satisfy up to 1/3 (4 hours) of the Corporation's CE Compliance requirement for a cycle. The remaining 2/3 (8 hours) must be satisfied through Canadian compliance courses.

10. The Compliance requirement for Voluntary Participation is restricted to selected courses. For further information, see Voluntary Participation Courses in this guideline.

B. DELIVERY GUIDELINES

1. The course or courses used to fulfill the compliance requirement must be a minimum of 12 hours in total duration.
2. The Guidelines have been developed to offer some flexibility to Dealer Members and their ~~approved persons~~Approved Persons. The manner in which the topics are reviewed is left to the Dealer Member's discretion, provided the minimum 12-hour requirement for every three-year cycle is satisfied.
3. The Dealer Member may choose to deliver the compliance course in a number of ways. The following are examples of possible modes of delivery, but is not exhaustive:
 - (a) A Dealer Member may hold an 8-hour in-house compliance seminar, with 4 hours of preparatory reading and study. In the first part of the seminar, topic areas 1 - 4, below, could be reviewed. Then the information imparted could be used in the discussion of case studies during the remainder of the seminar, or
 - (b) A Dealer Member could offer the compliance course over the three years, by requiring their ~~approved persons~~Approved Persons to participate in a minimum 4-hour seminar every year. However, the seminar must still cover at least one of the 4 topic areas set out below and must do so in sufficient depth.
4. It is up to the Dealer Member to determine what constitutes successful completion of the course by its ~~approved persons~~Approved Persons. For example, a Dealer Member may:
 - (a) require its ~~approved persons~~Approved Persons to write and pass a firm-developed and delivered exam,
 - (b) require its ~~approved persons~~Approved Persons to write and pass an external course provider developed and delivered exam, or
 - (c) require a certificate of attendance and participation at a seminar.

The preceding list of examples is not exhaustive.

C. COURSE CONTENT

1. The course content must fall within at least one of the following 4 major topic areas:
 - (a) Review of critical regulations and application
 - (b) Regulatory changes
 - (c) Rules relating to new products, if offered by the firm
 - (d) Ethics
2. Some examples of relevant issues for the 4 topic areas are provided below. Examples are given for both institutional and retail registrants. Certain of the examples will change over time to reflect emerging issues in the industry
 - (a) How the Securities Administrators and Self Regulatory Organizations Regulate Securities Industry Participants
 - (b) Regulatory Developments that Affect Firm Management
 - (c) Disclosure of Information to Clients
 - (d) Registration and Continuing Education

- (e) Operations and Firm Capital
 - (f) Sales and Trading Conduct – General
 - (g) Sales and Trading – Institutional Markets
 - (h) Current Developments in Bond Market Regulation
 - (i) Suitability and New Products
 - (j) Corporate Finance – New Rules
 - (k) Corporate Finance – Proposed New Rules
 - (l) Ethical issues and Case Studies
 - (m) Anti-money laundering laws and regulations and their implementations at the Dealer Member.
 - (n) Privacy
 - (o) Screening for Suitable Clients
3. The importance of certain topics may vary by Dealer Member, depending on the Dealer Member's business and the participants' individual responsibilities.
4. Compliance courses may also be selected from courses accredited through the Corporation's official accreditation Program.

THE PROFESSIONAL DEVELOPMENT COURSE

A. BASIC PRINCIPLES

- 1. In general, the courses should be relevant to the securities industry and financial advisors, management-oriented, or designed to improve client service.
- 2. The subject matter of an individual's course or courses should reasonably reflect that person's skill requirements or be based on the firm's products and market strategies.
- 3. The program undertaken should reflect the industry's commitment to high quality client service, advice, and professionalism.
- 4. The subject matter should be educational and non-promotional in nature. For example, the following would not qualify: corporate events held exclusively to introduce or promote new product or service offerings, networking events, or motivational speakers.
- 5. Subject matter relating to issuer-specific/branded product qualifies if presented in the context of a larger education course or presentation. The general education portion of a course relating to a product category may be granted full credit for the number of hours it takes and the issuer-specific portion should be credited half credit.
- 6. The program's provider should be professional, having defined the program's learning outcomes in advance, and be able to certify a student's successful completion. Alternatively, the firm may certify a student's successful completion, and assume responsibility for this function.
- 7. If the course program includes an examination, this examination must be successfully completed in order for the course to be applied towards the individual's Professional Development requirement.
- 8. Seminars that support other courses, or preparatory courses that support a course or examination, do not qualify separately for CE credit. The course or examination they support must be successfully completed in order to complete the CE requirement and the support or preparatory course hours may then be included in determining the duration of the total course. The CE credits for the preparatory course must be counted towards the same requirement (Compliance or Professional Development) as the applicable course and must be counted in the same CE Cycle.

9. An individual who teaches a relevant course may receive CE credits provided the member firm determines that the issues dealt with are relevant to Professional Development. The member firm may determine the amount of time applicable towards CE Professional Development credits.
10. Foreign courses can be used to satisfy the entire Professional Development requirement provided the course relates to the business the participant is engaged in.
11. The Professional Development requirement for Voluntary Participation is restricted to selected courses. For further information, see Voluntary Participation Courses in this guideline.

B. DELIVERY GUIDELINES

1. The course, or combination of courses, used to fulfill the Professional Development course must be at least 30 hours.
2. The Guidelines have been developed to offer some flexibility to Dealer Members and their approved persons. The manner in which the topics are reviewed is left to the Dealer Member's discretion, provided the minimum 30-hour requirement for every three-year cycle is satisfied.
3. The determination of delivery should consider both the most appropriate learning tools and the need to ensure that requirements have been met. In different situations, any of the following may prove to be appropriate
 - (a) Self-study materials which may contain an evaluation
 - (b) Material delivered electronically through computer-based technology
 - (c) Seminars and discussions delivered through internal or external providers
4. Material should, where possible, use cases and other application-based learning to develop problem-solving and decision-making skills. Training strategies should focus on product knowledge, regulatory knowledge, business development skills, managerial skills and client communication skills.
5. In some firms, programs have been developed beyond the basic licensing requirements for investment advisors, branch managers, and others. These courses are designed to develop additional skills particular to the position. This type of course would generally meet the criteria for the continuing education program. However, these courses must be of a non-promotional nature, i.e. there must be no specific product incentives attached.

C. COURSE CONTENT

1. Generally, the courses ought to examine product groups, services and investment and financial strategies that the individual may offer to clients or managerial skill for individuals. More specifically, the courses and materials should deal with the following areas:
 - (a) Product category features which should be fully communicated to a client in recommending a product
 - (b) Approaches to valuation of a product category and the product's applicable risk factors
 - (c) Strategies for investing in a product category including the particular client objectives in which it would provide the most suitable results
 - (d) The suitability of the use of leverage for a particular product category and investment strategy
 - (e) The features and applicable cost of a service which the firm offers
 - (f) The regulatory, tax and other features of a product or service which might affect its suitability
 - (g) Methods of evaluating competing products, services and investment strategies
 - (h) The suitability of a product category, service or strategy for clients with different financial, risk and knowledge profiles
 - (i) Managerial skills which would assist managers in meeting strategic and operational objectives

- (j) Communication skills which would result in improved client service and determinations of client service
 - (k) Practice management skills which would provide tools to assist firm personnel in improving client service
 - (l) Technology used to enhance client service and the provision of advice.
 - (m) Screening for Suitable Clients – the quantitative and the qualitative
2. The following are some examples of external courses that would likely fit the criteria outlined in the framework for an individual's course of study:
- (a) Additional licensing courses offered by the CSI Global Education Inc. such as derivatives courses may be used to satisfy the requirement; however, the Professional Financial Planning Course, Investment Management Techniques Course or Wealth Management Essentials course may be used only if it has not been used to satisfy the requirement of Rule 2900, Part I, Section A.3(c).
 - (b) Courses accredited through the Corporation's official accreditation Program.
 - (c) Relevant courses offered or endorsed by professional associations that have licensing and continuing education programs such as, CIMA, CFP, CFA, IQPF, CLU, insurance licensing and CSI designations

1. Identify Training Needs
 - (a) Identify knowledge and skills, which would impact positively on the firm and individuals.
 - (b) Identify the learning objectives expected from the program or course.
2. Identify the evaluation method(s) to be used.
3. Determine how successful completion is to be ascertained.
4. Identify the delivery mechanism

 - (b) Determine external suppliers or internal experts who are professional and capable of providing delivery of material.
 - (c) Identify programs / courses that would deliver the skills and knowledge which would meet the firm and individual needs.
5. Cross-check outcomes desired against outcomes promised.

VOLUNTARY PARTICIPATION COURSE REQUIREMENTS

2. Courses that qualify for Voluntary Participation have the following characteristics:
 - (a) They build upon or refresh the course materials of the CSC and CPH
