NOTICE OF REVOCATION AND REPLACEMENT OF OSC RULE 13-502 FEES AND OSC RULE 13-503 (COMMODITY FUTURES ACT) FEES AND NOTICE OF RESCISSION AND REPLACEMENT OF COMPANION POLICY 13-502CP FEES AND COMPANION POLICY 13-503CP (COMMODITY FUTURES ACT) FEES

January 27, 2015

Introduction

On January 27, 2015, the Ontario Securities Commission (OSC, Commission or we) approved the revocation and replacement of OSC Rule 13-502 *Fees* and OSC Rule 13-503 (*Commodity Futures Act*) *Fees* (the Final Amendments) and approved the rescission and replacement of Companion Policy 13-502CP *Fees* and Companion Policy 13-503 (*Commodity Futures Act*) CP *Fees* (the Final CP Changes). The Final Amendments and the Final CP Changes (collectively, the Final Materials) are largely consistent with materials published for a 90-day comment period on September 18, 2014 (the September 2014 Proposals), but as described below are responsive to a number of comments made. In this Notice, references to “Existing Rule” are to the Rule before taking into account the Final Amendments and references to the “Final Rule” are to the Rule as amended by the Final Amendments.

Under section 143.3 of the *Securities Act* (the Act), the Final Amendments were delivered to the Minister of Finance on January 27, 2015. If the Minister approves the Final Amendments on or before March 20, 2015 they will come into force on April 6, 2015. If the Minister does not take an action under subsection 143.3(3) of the Act, they will come into force on April 11, 2015.

The Final Materials have been published in this Bulletin.

Substance and Purpose of the Final Materials

The Final Amendments are largely consistent with the basic framework under the existing rule. The fee structure is designed to recover the costs the OSC incurs to provide protection to investors and promote efficient capital markets that are aligned with global markets. The two main types of fees charged under the Existing Rule are participation fees and activity fees.

Participation fees are based on the cost of a broad range of regulatory services that cannot be practicably or easily attributed to individual activities or entities and are intended to serve as a proxy for the market participant’s use of the Ontario capital markets. Participation fee levels are set using a tiered structure. Fees for issuers are based on average market capitalization in a fiscal year; fees for registrants are based on their Ontario revenues. Participation fees are set based on estimates of OSC operating costs for upcoming periods. The Existing Rule has four main categories of participation fees:

- a. corporate finance participation fees for reporting issuers
- b. capital markets participation fees for registrants and certain unregistered capital markets participants
- c. participation fees for specified regulated entities (such as exchanges, alternative trading systems, clearing agencies and trade repositories), which are based on different factors depending on the type of regulated entity. For example, the entity’s Canadian trading share, for exchanges and certain ATSS
- d. participation fees for designated rating organizations which are set at a flat rate.

When the Existing Rule was introduced in 2013, the calculations of participation fees were changed to be based on historical data or a reference fiscal year (RFY). Under the Existing Rule, market participants who had a decline in their Ontario revenue or market capitalization across the fee cycle do not see any reduction in their fees. Similarly, those participants who experienced growth in Ontario revenue or market capitalization did not see any increase in their fees. At the time of the publication of the Existing Rule the OSC undertook to monitor carefully the participation fees collected and to assess the impact of using the RFY and to also consider whether any adjustments were necessary.

The Final Amendments introduce adjustments so that the fees charged by the OSC are aligned more closely with the Commission's costs and address concerns raised by market participants about the use of the RFY. The Final Amendments will remove the use of the RFY and market participants will be required to calculate their participation fees payable using their most recent financial year information and, for registrants, the most recent financial year ending in the calendar year. The key advantage of this proposed change for participants is that the fees will more closely track current market conditions. The fees payable will increase or decrease based on actual changes in business conditions and performance. The disadvantage of this change is that it will reduce the predictability of fees receivable by the OSC.

Activity fees are generally charged where a document of a designated class is filed. Estimates of the direct cost of Commission resources expended in undertaking the activities listed in Appendix C of the Existing Rule are considered in determining these fees (e.g., reviewing prospectuses, registration applications and applications for discretionary relief). Generally, the activity fee charged for filing a document of a particular class is based on the average cost to the Commission of reviewing documents of the class. Under the Existing Rule, there is also provision in narrow circumstances for charging a variable cost-based fee for certain filings by entities such as exchanges, alternative trading systems and clearing agencies, in light of the high degree of variability of the costs in these filings. A small number of new fees are imposed primarily to achieve better matching of revenues to costs incurred for a specific activity (i.e. takeover bid fees) or to improve fairness or consistency of approach within the rule. Various minor administrative changes are also imposed to improve fairness, improve compliance or reduce regulatory burden (e.g. by reducing the collection of minor fees).

The Final CP Changes reflect the Final Amendments. Further details on the Final Amendments and the Final CP Changes are provided below under the headings "Summary of Final Amendments" and "Summary of Final CP Changes".

Options to introduce new exempt market and derivative related fees were also considered. We are not including these fees in the Final Amendments at this time because the underlying policy work on these issues has not been completed. Once this policy work is finalized, any proposed related fees will be included as consequential amendments to the fee rules within those policy proposals.

Changes from the September 2014 Proposals

The OSC has reflected on the comments to the proposed rule and has taken steps to respond to these concerns. The Final Amendments reflect a number of changes to respond to specific areas of concern highlighted in some comments. In particular, the OSC has removed the proposed changes to the participation fee rate for designated trade repositories. The current participation fees of \$30,000 will remain in place. Staff will continue to assess the costs of trade repository oversight and intend to develop and publish a revised proposal for comment at a later date.

The Final Materials also reflect a number of technical changes and corrections, including a revision to the application fee in row E6 of Appendix C to conform to the changes to fees for other exemptive relief applications in rows O1 and O2 of Appendix C.

The Commission is of the view that these changes do not require a second comment period.

Final Companion Policy Changes

The Final CP Changes largely reflect the Final Amendments.

The notice containing the September 2014 Proposals summarizes the amendments that are included in the Final Materials. Changes from the September 2014 Proposals, largely in response to the comments received, are described below in this Notice.

Additional guidance has been provided relating to staff's approach to dealing with certain activity and late fees.

ANNEX A

RESPONSE TO COMMENTS

Item	Issue	Commission's Response
1	<p>A number of designated trade repositories (TR) noted that the proposed increase of participation fees from \$30,000 to \$75,000 or higher is excessive. They believe that the short history of TR oversight does not provide a reasonable base for estimating future TR participation fees and that fees should not be revised until there is enough post-implementation analysis to determine appropriate rates.</p> <p>Some commenters suggested that the fees as proposed would jeopardize their financial viability and will require fee increases to their customers to support higher cost structures.</p>	<p>Staff propose to maintain the current participation fees of \$30,000 at this time and continue to consider the appropriate level of TR oversight costs. Staff intend to revise the proposal and re-publish for comment at a later date.</p>
2	<p>Commenters noted that projected budget growth and fee increases are excessive and that fee increases should be limited to the rate of inflation. It was also suggested that fees are not fairly allocated across all market sectors and consideration should be given to reducing fees for the junior sector.</p>	<p>Fees are set at levels to support required regulatory activity to address market issues and workload which are often not correlated to the rate of inflation. The fee rule already contains elements that are specifically more favourable for smaller market participants.</p>
3	<p>There was support for one fee being charged in connection with exemptive relief that affects affiliated registrants engaging in an activity together but submit that affiliated registrants who engage in similar activities, even if they do not engage in the activity together, should also pay only one fee since the legal analysis for such relief will also be similar.</p>	<p>Situations where affiliated registrants, who engage in similar activities even if not together, are reviewed on a case-by-case basis to determine the amount of fees due.</p>
4	<p>It was suggested that it is not necessary, or desirable, to require the chief compliance officer of a firm to certify the capital markets participation fees payable by a registrant.</p>	<p>We believe that the authority level and the accountability associated with the registered chief compliance officer is appropriate for the certification.</p>
5	<p>IFMs who have no investors in their funds in Ontario or who are relying on the "no active solicitation" exemption provided for in MI 32-102, do not pay fees under the Fee Rule and submit that this position should also be clarified in connection with registered IFMs. An IFM should pay fees in Ontario only to the extent that the IFM has investors in their funds in Ontario and only on revenues generated in respect of these clients.</p>	<p>For investment fund managers based in Ontario, their revenues will be earned in Ontario if their fund management activities are carried out in Ontario, whether or not the assets of the funds they are managing are located in or obtained from Ontario investors. These managers benefit from the oversight and regulation carried out by Ontario as their principal regulator.</p> <p>Also, the calculation methodology of participation fees for registered IFMs is consistent with the method applied to other registrants, including a portfolio manager that only has offices in Ontario as described in the comment letter. This methodology has not changed since the Fees Rule was originally introduced. At that time, we considered other calculation methodologies but determined that that the current method was the most appropriate, fair and verifiable for all registrant categories. Accordingly, a change to the participation fee calculation methodology for registered IFMs is beyond the scope of the current proposals that were published for comment.</p>

Item	Issue	Commission's Response
6	Commenters support the OSC's proposal to align the timing of an unregistered IFM's participation fee calculation filing and participation fee payments with that of other registrants and exempt international firms.	We appreciate the commenters' support.
7	One commenter suggested that, consistent with the proposal to keep the filing fees paid by registrants in line with revenues received by registrants, the conversion guidance should be changed to permit the conversion as at the date revenues are invoiced or received by the registrant.	<p>A set reporting date versus an invoiced/received by date is more easily verified and simpler to apply. As the bands for the specified Ontario revenues are quite broad, we believe that it would be rare for currency exchange rate fluctuations to cause a registrant firm or an unregistered capital markets participant to move into a different band and in turn, affect the amount of participation fees payable.</p> <p>Should exchange rates fluctuate significantly and a firm's participation fees are impacted as a result of the conversion at the reporting date's rate, we would invite the firm to apply for exemptive relief and would deal with these firms on a case by case basis.</p>
8	It was suggested that it is inappropriate to charge an additional activity fee for permitted individuals filing Form 33-109F4.	The fee is designed to recover the costs of our review of these forms. Similar to all other activities, the direct costs of the Commission for the review of the Form 33-109F4 for permitted individuals was considered in setting the amount of the activity fee.
9	A respondent sought clarification as to whether the OSC will impose the new activity fee for individuals seeking approval as a permitted individual concurrently with an application for a registration category that already involves an activity fee.	The intent of the amendment is to charge \$100 for permitted individuals only. If an individual is applying as a registered and permitted individual, the fee would be \$200, which is the activity fee associated with the registration of a new representative on behalf of the firm. The fee was not intended to be "on top" of the fee for registered individuals, only to recover costs related to the review. These fees are not additive.
10	Under OSC Rule 13-502, refunds are only granted with respect to participation fees in the case of overpayment or incorrect calculations. The respondent suggests that a 120 day period is a more realistic timeline in light of the audit process for firms with calendar year-ends.	Our view is that the refund request process is not burdensome and could be completed within the allotted time. Individual cases will still be considered on a case by case basis although we expect that most firms would have their annual audit complete and be aware of any refund owing before the 90 day period.
11	Some commenters believe that the current maximum aggregate late fee of \$5,000 serves as a sufficient deterrent for firms to file documents in the time period specified by Ontario securities law, and is already prohibitively high. They strongly object to an increase to \$10,000, particularly since certain of the activity fees paid by registrants to file these documents are also proposed to be increased.	We do not agree with the comment. These fees are an avoidable charge and only are collected in instances of non-compliance. The higher rate for larger participants is consistent with other aspects of the Rule and is viewed as a way to increase the deterrent impact of these types of fees. Further, our analysis during the amendments process of several large participants indicated that the maximum fee of \$5,000 did not act as a sufficient deterrent and a higher late fee cap is therefore appropriate.
12	The respondent is seeking greater transparency for decisions relating to late fee reductions or waivers and suggests that decisions could be issued in real time or perhaps in the annual CRR report.	As part of the amendments process, we reviewed common fee waivers to identify areas where our waiver practices could be codified in the Final Amendments, such as for affiliated registrants engaging in an activity together. For all other decisions going forward, we will consider an appropriate approach to improve the transparency of these decisions, in particular where trends in fee waivers are identified. As any actions taken in this regard would be a business practice of the OSC, rather than a requirement in the Final Amendments, no change is proposed.

Item	Issue	Commission's Response
13	A commenter suggested that the title of the certification form of the participation fee calculation be entitled "Chief Compliance Officer Certification" rather than "Management Certification".	The form title will be changed as suggested to reflect the amendment that the Chief Compliance Officer is now the individual providing the certification.
14	A number of respondents noted their support for eliminating the use of a reference fiscal year.	We appreciate the commenter's support.

**ONTARIO SECURITIES COMMISSION
COMPANION POLICY 13-502CP FEES**

PART 1 – PURPOSE OF COMPANION POLICY

- 1.1 Purpose of Companion Policy** – The purpose of this Companion Policy is to state the views of the Commission on various matters relating to OSC Rule 13-502 *Fees* (the “Rule”), including an explanation of the overall approach of the Rule and a discussion of various parts of the Rule.

PART 2 – PURPOSE AND GENERAL APPROACH OF THE RULE

2.1 Purpose and general approach of the Rule

- (1) The purpose of the Rule is to establish a fee regime that creates a clear and streamlined fee structure.
- (2) The fee regime of the Rule is based on the concepts of “participation fees” and “activity fees”.

2.2 Participation fees

- (1) Reporting issuers, registrant firms and unregistered capital markets participants, as well as specified regulated entities and designated rating organizations, are required to pay participation fees annually.
- (2) Participation fees are designed to cover the Commission’s costs not easily attributable to specific regulatory activities. The participation fee required of a person or company under Parts 2 and 3 of the Rule is based on a measure of the person’s or company’s size, which is used as a proxy for its proportionate participation in the Ontario capital markets. In the case of a reporting issuer, the participation fee is based on the issuer’s capitalization, which is used to approximate its proportionate participation in the Ontario capital markets. In the case of a registrant firm or unregistered capital markets participant, the participation fee is based on the firm’s revenues attributable to its capital markets activity in Ontario.
- (3) Participation fees under Part 4 of the Rule are generally fixed annual amounts payable each calendar year. In the case of specified regulated entities to which Part 4 of the Rule applies, participation fees are generally specified for a particular organization or type of organization in Appendix B.1. The level of participation fees for recognized clearing agencies is determined by reference to the services they provide.
- (4) Participation fees for designated rating organizations under Part 5 of the Rule are \$15,000 per financial year.
- (5) A person or company may be subject to participation fees under more than one part of the Rule. There is no cap on multiple participation fees except as described in subsection 2.7(2).

- 2.3 Application of participation fees** – Although participation fees are determined with reference to information from a financial year of the payor generally ending before the time of their payment, they are applied to the costs of the Commission of regulating the ongoing participation in Ontario’s capital markets of the payor and other market participants.

- 2.4 Registered individuals** – The participation fee is paid at the firm level under the Rule. For example, a “registrant firm” is required to pay a participation fee, not an individual who is registered as a representative of the firm.

2.5 Activity fees

- (1) Activity fees are generally charged where a document of a designated class is filed. Estimates of the direct cost of Commission resources expended in undertaking the activities listed in Appendix C of the Rule are considered in determining these fees (e.g., reviewing prospectuses, registration applications, and applications for discretionary relief). Generally, the activity fee charged for filing a document of a particular class is based on the average cost to the Commission of reviewing documents of the class.
- (2) Under certain circumstances, Staff may consider reducing activity fees for applications made by or on behalf of two or more reporting issuers that are affiliates of each other, and who are applying for the same exemptive relief. In such circumstances, the activity fees will be reduced such that the activity fees paid on an application will be the same as if one reporting issuer filed the application.

2.6 Registrants under the *Securities Act* and the *Commodity Futures Act*

- (1) The Rule imposes an obligation to pay a participation fee on registrant firms, defined in the Rule as a person or company registered under the *Act* as a dealer, adviser or investment fund manager. An entity so registered may also be registered as a dealer or adviser under the *Commodity Futures Act*. Given the definition of “capital markets activities” under the Rule, the revenue of such an entity from its *Commodity Futures Act* activities must be included in its calculation of revenues when determining its fee under the Rule. Section 2.1 of OSC Rule 13-503 (*Commodity Futures Act*) Fees exempts such an entity from paying a participation fee under that rule if it has paid its participation fees under the *Securities Act* Rule.
- (2) Note that dealers and advisers registered under the *Commodity Futures Act* are subject to activity fees under OSC Rule 13-503 (*Commodity Futures Act*) Fees even if they are not required to pay participation fees under that rule.

2.7 Refunds

- (1) The Rule provides the specific circumstances where the Commission is required to refund fees in subsections 2.5(3) and 3.2(3) of the Rule. These subsections allow for a refund where a reporting issuer, registrant firm or unregistered capital markets participant overpaid an estimated participation fee provided the request is made within the time the related form was required to be filed.
- (2) A further refund mechanism is provided under subsection 4.3(4). This subsection deals with a refund mechanism used to effect a cap of Part 3 and Part 4 participation fees for alternative trading systems, in an attempt to align the participation fees to those charged to other specified regulated entities.
- (3) Generally, a person or company that pays a fee under the Rule is not entitled to a refund of that fee unless they meet the conditions set out in the Rule and discussed in subsections (1) and (2) above. For example, there is no refund available for an activity fee paid in connection with an action that is subsequently abandoned by the payor of the fee. Also, there is no refund available for a participation fee paid by a reporting issuer, registrant firm or unregistered capital markets participant that loses that status later in the financial year in respect of which the fee was paid.
- (4) While the Commission will also review requests for adjustments to fees paid in the case of incorrect calculations, unless there are exceptional circumstances, we will not generally issue a refund if a request is made more than 90 days after the fee was required to be paid.

2.8 Indirect avoidance of Rule – The Commission may examine arrangements or structures implemented by a person or company and their affiliates that raise the suspicion of being structured for the purpose of reducing the fees payable under the Rule. For example, the Commission will review circumstances in which revenues from registrable activities carried on by a corporate group are not treated as revenues of a registrant firm to assess whether the firm has artificially reduced the firm’s specified Ontario revenues and, consequently, its participation fee. Similarly, registrant firms or unregistered capital markets participants that operate under a cost recovery model in which there are no recorded revenues on their financial statements would be expected to report a reasonable proxy of the firm’s capital markets activities in Ontario, subject to the conditions of any exemptive relief granted under section 8.1 of the Rule. In all cases, the Commission expects registrant firms and unregistered capital markets participants to pay participation fees based on all revenues attributable to capital markets activities in Ontario, irrespective of how these revenues are recorded or structured.

PART 3 – CORPORATE FINANCE PARTICIPATION FEES

- 3.1 Application to investment funds** – Part 2 of the Rule does not apply to an investment fund if the investment fund has an investment fund manager. The reason for this is that under Part 3 of the Rule an investment fund’s manager must pay a capital markets participation fee in respect of revenues generated from managing the investment fund.
- 3.2 Late fees** – Section 2.7 of the Rule requires a reporting issuer to pay an additional fee when it is late in paying its participation fee. Reporting issuers should be aware that the late payment of participation fees may lead to the reporting issuer being noted in default and included on the list of defaulting reporting issuers available on the Commission’s website.
- 3.3 Exemption for subsidiary entities** – Under section 2.4 of the Rule, an exemption from participation fees is available to a reporting issuer that is a subsidiary entity if, among other requirements, the parent of the subsidiary entity has paid a participation fee applicable to the parent under section 2.2(1) of the Rule determined with reference to the parent’s capitalization for the parent’s financial year. For greater certainty, this condition to the exemption is not satisfied in

circumstances where the parent of a subsidiary entity has paid a participation fee in reliance on subsection 2.2(2) or (3) of the Rule.

3.4 Determination of market value

- (1) Paragraph 2.8(1)(a) of the Rule requires the calculation of the capitalization of a reporting issuer to include the total market value of all of its equity securities listed or quoted on a marketplace. This includes, but is not limited to, any listed shares, warrants, subscription receipts and rights.
- (2) Paragraph 2.8(1)(b) of the Rule requires the calculation of the capitalization of a reporting issuer to include the total fair value of its debt securities that are listed or quoted on a marketplace, trade over the counter or otherwise generally available for sale without regard to a statutory hold period. This paragraph is intended to include all capital market debt issued by the reporting issuer, whether distributed under a prospectus or prospectus exemption, and includes, but is not limited to, bonds, debentures (including the equity portion of convertible debentures), commercial paper, notes and any debt securities to which a credit rating is attached, but is not intended to include bank debt (such as term loans and revolving credit facilities) and mortgages.
- (3) If the closing price of a security on a particular date is not ascertainable because there is no trade on that date or the marketplace does not generally provide closing prices, a reasonable alternative, such as the most recent closing price before that date, the average of the high and low trading prices for that date, or the average of the bid and ask prices on that date is acceptable.

3.5 Owners' equity and non-current borrowings – A Class 2 reporting issuer calculates its capitalization on the basis of certain items reflected in its audited statement of financial position. Two such items are “share capital or owners' equity” and “non-current borrowings, including the current portion”. The Commission notes that “owners' equity” is designed to describe the equivalent of share capital for non-corporate issuers, such as partnerships or trusts. “Non-current borrowings” is designed to describe the equivalent of long term debt or any other borrowing of funds beyond a period of twelve months.

3.6 Identification of non-current liabilities – If a Class 2 reporting issuer does not present current and non-current liabilities as separate classifications on its statement of financial position, the reporting issuer will still need to classify these liabilities for purposes of its capitalization calculation. In these circumstances non-current liabilities means total liabilities minus current liabilities, using the meanings ascribed to those terms under the accounting standards pursuant to which the entity's financial statements are prepared under Ontario securities law.

PART 4 – CAPITAL MARKETS PARTICIPATION FEES

4.1 Liability for capital markets participation fees – Capital markets participation fees are payable annually by registrant firms and unregistered capital markets participants, as defined in section 1.1 of the Rule.

4.2 Filing forms under section 3.2 of the Rule – If the estimated participation fee paid under subsection 3.2(1) of the Rule by a registrant firm or an unregistered capital markets participant does not differ from its true participation fee determined under paragraph 3.2(2)(b) of the Rule, the registrant firm or unregistered capital markets participant is not required to file either a Form 13-502F4 or a Form 13-502F5 under paragraph 3.2(2)(c) of the Rule.

4.3 Late fees – Section 3.4 of the Rule prescribes an additional fee if a participation fee is paid late. The Commission and the Director will, in appropriate circumstances, consider tardiness in the payment of fees as a matter going to the fitness for registration of a registrant firm. The Commission may also consider measures in the case of late payment of fees by an unregistered capital markets participant, such as: in the case of an unregistered investment fund manager, prohibiting the manager from continuing to manage any investment fund or cease trading the investment funds managed by the manager; or, in the case of an unregistered exempt international firm, making an order pursuant to section 127 of the *Act*, that the corresponding exemptions from registration requirements under which the firm acts do not apply to the firm (either permanently or for such other period as specified in the order).

4.4 Form of payment of fees – Registrant firms pay through the National Registration Database. The filings and payments for unregistered capital markets participants should be sent via wire transfer or sent to the Ontario Securities Commission (Attention: Manager, Compliance and Registrant Regulation).

4.5 “Capital markets activities”

- (1) A person or company must consider its capital markets activities when calculating its participation fee. The Commission is of the view that these activities include, without limitation, carrying on the business of trading in securities, carrying on the business of an investment fund manager, providing securities-related advice or

portfolio management services. The Commission notes that corporate advisory services may not require registration or an exemption from registration and would therefore, in those contexts, not be capital markets activities.

- (2) The Commission is of the view that these activities include, without limitation, trading in commodity futures contracts, carrying on the business of providing commodity futures contracts-related advice and portfolio management services involving commodity futures contracts.

4.6 Permitted deductions – Subsection 3.6 of the Rule permits certain deductions to be made for the purpose of calculating specified Ontario revenues for unregistered capital markets participants and registrant firms. The purpose of these deductions is to prevent the “double counting” of revenues that would otherwise occur.

4.7 Active solicitation – For the purposes of the definition of unregistered investment fund manager in section 1.1 of the Rule, “active solicitation” refers to intentional actions taken by the investment fund or the investment fund manager to encourage a purchase of the fund’s securities, such as proactive, targeted actions or communications that are initiated by an investment fund manager for the purpose of soliciting an investment. Actions that are undertaken by an investment fund manager at the request of, or in response to, an existing or prospective investor who initiates contact with the investment fund manager would not constitute active solicitation.

4.8 Confidentiality of forms – The material filed under Part 3 of the Rule will be kept confidential. The Commission is of the view that the material contains intimate financial, commercial and technical information and that the interests of the filers in non-disclosure outweigh the desirability of the principle that the material be available for public inspection.

PART 5 – OTHER PARTICIPATION FEES

5.1 General – Participation fees are also payable annually by specified regulated entities and designated credit rating organizations under Parts 4 and 5 of the Rule.

5.2 Specified regulated entities – The calculation of participation fees under Part 4 of the Rule is generally determined with reference to described classes of entities. The classes, and their level of participation fees, are set out in Appendix B.1 of the Rule.

- (1) To provide more equitable treatment among exchanges and alternative trading systems (ATS) for exchange-traded securities and to take into account Part 3 participation fees payable by an alternative trading system entity for exchange-traded securities, its participation fee is adjusted under section 4.3.

For example, assume that participation fees under Part 3 for an eligible ATS payable on December 31, 2015 is \$74,000 and the ATS’s Canadian trading share is under 5%. In this case, the ATS would pay \$74,000 on December 31 when filing its Form 13-502F4. Before April 30, 2016 when filing form 13-502F7, the fee payable will be shown as \$17,000 (the lesser of (a) \$30,000 from row A1 of Appendix B.1 and (b) \$17,000). In this case, the ATS will be entitled to a refund of \$57,000 (\$74,000 paid on December 31 less \$17,000 required to be paid under Part 4). A mechanism that is similar in principle applies to other ATS entities under subsections 4.2(2) and (3).

An ATS described in subsection 4.3(6) will pay an aggregate participation fee calculated based on the type of securities traded on each of its platforms. For example, an ATS that has a platform for trading equities and another one for trading fixed income securities would pay a participation fee for its equity platform calculated as described above and a participation fee for its fixed income platform as described in Appendix B.1 row C2.

- (2) If a specified regulated entity is recognized during the specified period, it must pay to the Commission, immediately upon recognition, designation etc., a participation fee for the remaining specified period. The participation fee owed to the Commission will be pro-rated based on the number of remaining complete months to March 31 subsequent to it being recognized, designated, etc. For example, if an exchange was recognized on January 15, 2016, it will owe to the Commission a pro-rated participation fee in the amount of \$5,000 for the two complete months remaining until March 31 (calculated as \$30,000 x 2/12). A form 13-502F7 must be filed with the pro-rated payment.

Continuing with the example above, the recognized exchange will also need to calculate the participation fee due before April 30, 2016 and file a second Form 13-502F7 with this payment. For the purpose of calculating its Canadian trading share, the exchange should use the actual Canadian trading share for the months of February and March 2016 and zero for the months before it received recognition (i.e. April 2015 to January 2016).

PART 6 – ACTIVITY FEES

- 6.1 Technical reports** – Item A2 of Appendix C requires fee payment of \$2,500 for the filing of a technical report, including where a technical report is incorporated by reference into a prospectus. Staff consider that a technical report is incorporated by reference into a prospectus even if the incorporation is indirect; for example, the technical report is referenced in an annual information form that itself is included or incorporated in the prospectus.
- 6.2 Concurrent application by permitted individual** – Item K4 of Appendix C imposes a fee of \$100 for an individual seeking approval as a permitted individual. Item K5 imposes a fee of \$200 for an individual changing his or her status to a representative of a registrant firm. If an individual makes a concurrent application for approval as a permitted individual and as a representative of a registrant firm, staff would expect a fee of \$200 in the aggregate.

PART 7 – LATE FEES

- 7.1 Late fees relating to Form 33-109F5** – Paragraph (e) to item A of Appendix D to the Rule provides for a late fee of \$100 per day to a maximum cap for each year. Form 33-109F5 is required to be filed for changes in registration information within the time periods specified in Parts 3 and 4 of NI 33-109. In some cases, registrants file the form merging a number of changes that have occurred and were required to be reported at different times. Staff will generally apply the late fee under paragraph (e) of Item A for each change reported on the F5 on the basis that a separate form was required to be filed in respect of each change.
- 7.2 Late fees under section 6.4 of the Rule for registrant firms** – Appendix D to the Rule outlines additional fees payable by registrant firms for the late filing or delivery of certain forms or documents required under the Act. The Commission may consider the late filing or delivery of forms or documents when assessing the ongoing suitability for registration of a registrant firm.
- 7.3 Late filings for the purpose of amending Form 33-109F6** – For amendments to item 5.5 *Bonding or insurance details* on Form 33-109F6, registrant firms are expected to notify the regulator of any change to bonding or insurance details in accordance with section 12.2 of NI 31-103, including the renewal of an insurance policy. The Commission will not charge a late fee with respect to renewal of bonding or insurance policies. However, late notifications of any changes in insurer or coverage amounts are subject to the late fees outlined in the Rule.

**ONTARIO SECURITIES COMMISSION
COMPANION POLICY 13-502CP FEES**

PART 1 – PURPOSE OF COMPANION POLICY

- 1.1 Purpose of Companion Policy** – The purpose of this Companion Policy is to state the views of the Commission on various matters relating to OSC Rule 13-502 *Fees* (the “Rule”), including an explanation of the overall approach of the Rule and a discussion of various parts of the Rule.

PART 2 – PURPOSE AND GENERAL APPROACH OF THE RULE

2.1 Purpose and general approach of the Rule

- (1) The purpose of the Rule is to establish a fee regime that creates a clear and streamlined fee structure.
- (2) The fee regime of the Rule is based on the concepts of “participation fees” and “activity fees”.

2.2 Participation fees

- (1) Reporting issuers, registrant firms and unregistered capital markets participants, as well as specified regulated entities and designated rating organizations, are required to pay participation fees annually.
- (2) Participation fees are designed to cover the Commission’s costs not easily attributable to specific regulatory activities. The participation fee required of a person or company under Parts 2 and 3 of the Rule is based on a measure of the person’s or company’s size, which is used as a proxy for its proportionate participation in the Ontario capital markets. In the case of a reporting issuer, the participation fee is based on the issuer’s capitalization, which is used to approximate its proportionate participation in the Ontario capital markets. In the case of a registrant firm or unregistered capital markets participant, the participation fee is based on the firm’s revenues attributable to its capital markets activity in Ontario.
- (3) Participation fees under Part 4 of the Rule are generally fixed annual amounts payable each calendar year. In the case of specified regulated entities to which Part 4 of the Rule applies, participation fees are generally specified for a particular organization or type of organization in Appendix B.1. The level of participation fees for recognized clearing agencies is determined by reference to the services they provide.
- (4) Participation fees for designated rating organizations under Part 5 of the Rule are \$15,000 per financial year.
- (5) A person or company may be subject to participation fees under more than one part of the Rule. There is no cap on multiple participation fees except as described in subsection 2.7(2).

- 2.3 Application of participation fees** – Although participation fees are determined with reference to information from a financial year of the payor generally ending before the time of their payment, they are applied to the costs of the Commission of regulating the ongoing participation in Ontario’s capital markets of the payor and other market participants.

- 2.4 Registered individuals** – The participation fee is paid at the firm level under the Rule. For example, a “registrant firm” is required to pay a participation fee, not an individual who is registered as a representative of the firm.

2.5 Activity fees

- (1) Activity fees are generally charged where a document of a designated class is filed. Estimates of the direct cost of Commission resources expended in undertaking the activities listed in Appendix C of the Rule are considered in determining these fees (e.g., reviewing prospectuses, registration applications, and applications for discretionary relief). Generally, the activity fee charged for filing a document of a particular class is based on the average cost to the Commission of reviewing documents of the class.
- (2) Under certain circumstances, Staff may consider reducing activity fees for applications made by or on behalf of two or more reporting issuers that are affiliates of each other, and who are applying for the same exemptive relief. In such circumstances, the activity fees will be reduced such that the activity fees paid on an application will be the same as if one reporting issuer filed the application.

2.6 Registrants under the *Securities Act* and the *Commodity Futures Act*

- (1) The Rule imposes an obligation to pay a participation fee on registrant firms, defined in the Rule as a person or company registered under the *Act* as a dealer, adviser or investment fund manager. An entity so registered may also be registered as a dealer or adviser under the *Commodity Futures Act*. Given the definition of “capital markets activities” under the Rule, the revenue of such an entity from its *Commodity Futures Act* activities must be included in its calculation of revenues when determining its fee under the Rule. Section 2.1 of OSC Rule 13-503 (*Commodity Futures Act*) Fees exempts such an entity from paying a participation fee under that rule if it has paid its participation fees under the *Securities Act* Rule.
- (2) Note that dealers and advisers registered under the *Commodity Futures Act* are subject to activity fees under OSC Rule 13-503 (*Commodity Futures Act*) Fees even if they are not required to pay participation fees under that rule.

2.7 Refunds

- (1) The Rule provides the specific circumstances where the Commission is required to refund fees in subsections 2.5(3) and 3.2(3) of the Rule. These subsections allow for a refund where a reporting issuer, registrant firm or unregistered capital markets participant overpaid an estimated participation fee provided the request is made within the time the related form was required to be filed.
- (2) A further refund mechanism is provided under subsection 4.3(4). This subsection deals with a refund mechanism used to effect a cap of Part 3 and Part 4 participation fees for alternative trading systems, in an attempt to align the participation fees to those charged to other specified regulated entities.
- (3) Generally, a person or company that pays a fee under the Rule is not entitled to a refund of that fee unless they meet the conditions set out in the Rule and discussed in subsections (1) and (2) above. For example, there is no refund available for an activity fee paid in connection with an action that is subsequently abandoned by the payor of the fee. Also, there is no refund available for a participation fee paid by a reporting issuer, registrant firm or unregistered capital markets participant that loses that status later in the financial year in respect of which the fee was paid.
- (4) While the Commission will also review requests for adjustments to fees paid in the case of incorrect calculations, unless there are exceptional circumstances, we will not generally issue a refund if a request is made more than 90 days after the fee was required to be paid.

2.8 Indirect avoidance of Rule – The Commission may examine arrangements or structures implemented by a person or company and their affiliates that raise the suspicion of being structured for the purpose of reducing the fees payable under the Rule. For example, the Commission will review circumstances in which revenues from registrable activities carried on by a corporate group are not treated as revenues of a registrant firm to assess whether the firm has artificially reduced the firm’s specified Ontario revenues and, consequently, its participation fee. Similarly, registrant firms or unregistered capital markets participants that operate under a cost recovery model in which there are no recorded revenues on their financial statements would be expected to report a reasonable proxy of the firm’s capital markets activities in Ontario, subject to the conditions of any exemptive relief granted under section 8.1 of the Rule. In all cases, the Commission expects registrant firms and unregistered capital markets participants to pay participation fees based on all revenues attributable to capital markets activities in Ontario, irrespective of how these revenues are recorded or structured.

PART 3 – CORPORATE FINANCE PARTICIPATION FEES

- 3.1 Application to investment funds** – Part 2 of the Rule does not apply to an investment fund if the investment fund has an investment fund manager. The reason for this is that under Part 3 of the Rule an investment fund’s manager must pay a capital markets participation fee in respect of revenues generated from managing the investment fund.
- 3.2 Late fees** – Section 2.7 of the Rule requires a reporting issuer to pay an additional fee when it is late in paying its participation fee. Reporting issuers should be aware that the late payment of participation fees may lead to the reporting issuer being noted in default and included on the list of defaulting reporting issuers available on the Commission’s website.
- 3.3 Exemption for subsidiary entities** – Under section 2.4 of the Rule, an exemption from participation fees is available to a reporting issuer that is a subsidiary entity if, among other requirements, the parent of the subsidiary entity has paid a participation fee applicable to the parent under section 2.2(1) of the Rule determined with reference to the parent’s capitalization for the parent’s financial year. For greater certainty, this condition to the exemption is not satisfied in

circumstances where the parent of a subsidiary entity has paid a participation fee in reliance on subsection 2.2(2) or (3) of the Rule.

3.4 Determination of market value

- (1) Paragraph 2.8(1)(a) of the Rule requires the calculation of the capitalization of a reporting issuer to include the total market value of all of its equity securities listed or quoted on a marketplace. This includes, but is not limited to, any listed shares, warrants, subscription receipts and rights.
- (2) Paragraph 2.8(1)(b) of the Rule requires the calculation of the capitalization of a reporting issuer to include the total fair value of its debt securities that are listed or quoted on a marketplace, trade over the counter or otherwise generally available for sale without regard to a statutory hold period. This paragraph is intended to include all capital market debt issued by the reporting issuer, whether distributed under a prospectus or prospectus exemption, and includes, but is not limited to, bonds, debentures (including the equity portion of convertible debentures), commercial paper, notes and any debt securities to which a credit rating is attached, but is not intended to include bank debt (such as term loans and revolving credit facilities) and mortgages.
- (3) If the closing price of a security on a particular date is not ascertainable because there is no trade on that date or the marketplace does not generally provide closing prices, a reasonable alternative, such as the most recent closing price before that date, the average of the high and low trading prices for that date, or the average of the bid and ask prices on that date is acceptable.

3.5 Owners' equity and non-current borrowings – A Class 2 reporting issuer calculates its capitalization on the basis of certain items reflected in its audited statement of financial position. Two such items are “share capital or owners' equity” and “non-current borrowings, including the current portion”. The Commission notes that “owners' equity” is designed to describe the equivalent of share capital for non-corporate issuers, such as partnerships or trusts. “Non-current borrowings” is designed to describe the equivalent of long term debt or any other borrowing of funds beyond a period of twelve months.

3.6 Identification of non-current liabilities – If a Class 2 reporting issuer does not present current and non-current liabilities as separate classifications on its statement of financial position, the reporting issuer will still need to classify these liabilities for purposes of its capitalization calculation. In these circumstances non-current liabilities means total liabilities minus current liabilities, using the meanings ascribed to those terms under the accounting standards pursuant to which the entity's financial statements are prepared under Ontario securities law.

PART 4 – CAPITAL MARKETS PARTICIPATION FEES

4.1 Liability for capital markets participation fees – Capital markets participation fees are payable annually by registrant firms and unregistered capital markets participants, as defined in section 1.1 of the Rule.

4.2 Filing forms under section 3.2 of the Rule – If the estimated participation fee paid under subsection 3.2(1) of the Rule by a registrant firm or an unregistered capital markets participant does not differ from its true participation fee determined under paragraph 3.2(2)(b) of the Rule, the registrant firm or unregistered capital markets participant is not required to file either a Form 13-502F4 or a Form 13-502F5 under paragraph 3.2(2)(c) of the Rule.

4.3 Late fees – Section 3.4 of the Rule prescribes an additional fee if a participation fee is paid late. The Commission and the Director will, in appropriate circumstances, consider tardiness in the payment of fees as a matter going to the fitness for registration of a registrant firm. The Commission may also consider measures in the case of late payment of fees by an unregistered capital markets participant, such as: in the case of an unregistered investment fund manager, prohibiting the manager from continuing to manage any investment fund or cease trading the investment funds managed by the manager; or, in the case of an unregistered exempt international firm, making an order pursuant to section 127 of the *Act*, that the corresponding exemptions from registration requirements under which the firm acts do not apply to the firm (either permanently or for such other period as specified in the order).

4.4 Form of payment of fees – Registrant firms pay through the National Registration Database. The filings and payments for unregistered capital markets participants should be sent via wire transfer or sent to the Ontario Securities Commission (Attention: Manager, Compliance and Registrant Regulation).

4.5 “Capital markets activities”

- (1) A person or company must consider its capital markets activities when calculating its participation fee. The Commission is of the view that these activities include, without limitation, carrying on the business of trading in securities, carrying on the business of an investment fund manager, providing securities-related advice or

portfolio management services. The Commission notes that corporate advisory services may not require registration or an exemption from registration and would therefore, in those contexts, not be capital markets activities.

- (2) The Commission is of the view that these activities include, without limitation, trading in commodity futures contracts, carrying on the business of providing commodity futures contracts-related advice and portfolio management services involving commodity futures contracts.

4.6 Permitted deductions – Subsection 3.6 of the Rule permits certain deductions to be made for the purpose of calculating specified Ontario revenues for unregistered capital markets participants and registrant firms. The purpose of these deductions is to prevent the “double counting” of revenues that would otherwise occur.

4.7 Active solicitation – For the purposes of the definition of unregistered investment fund manager in section 1.1 of the Rule, “active solicitation” refers to intentional actions taken by the investment fund or the investment fund manager to encourage a purchase of the fund’s securities, such as proactive, targeted actions or communications that are initiated by an investment fund manager for the purpose of soliciting an investment. Actions that are undertaken by an investment fund manager at the request of, or in response to, an existing or prospective investor who initiates contact with the investment fund manager would not constitute active solicitation.

4.8 Confidentiality of forms – The material filed under Part 3 of the Rule will be kept confidential. The Commission is of the view that the material contains intimate financial, commercial and technical information and that the interests of the filers in non-disclosure outweigh the desirability of the principle that the material be available for public inspection.

PART 5 – OTHER PARTICIPATION FEES

5.1 General – Participation fees are also payable annually by specified regulated entities and designated credit rating organizations under Parts 4 and 5 of the Rule.

5.2 Specified regulated entities – The calculation of participation fees under Part 4 of the Rule is generally determined with reference to described classes of entities. The classes, and their level of participation fees, are set out in Appendix B.1 of the Rule.

- (1) To provide more equitable treatment among exchanges and alternative trading systems (ATS) for exchange-traded securities and to take into account Part 3 participation fees payable by an alternative trading system entity for exchange-traded securities, its participation fee is adjusted under section 4.3.

For example, assume that participation fees under Part 3 for an eligible ATS payable on December 31, 2015 is \$74,000 and the ATS’s Canadian trading share is under 5%. In this case, the ATS would pay \$74,000 on December 31 when filing its Form 13-502F4. Before April 30, 2016 when filing form 13-502F7, the fee payable will be shown as \$17,000 (the lesser of (a) \$30,000 from row A1 of Appendix B.1 and (b) \$17,000). In this case, the ATS will be entitled to a refund of \$57,000 (\$74,000 paid on December 31 less \$17,000 required to be paid under Part 4). A mechanism that is similar in principle applies to other ATS entities under subsections 4.2(2) and (3).

An ATS described in subsection 4.3(6) will pay an aggregate participation fee calculated based on the type of securities traded on each of its platforms. For example, an ATS that has a platform for trading equities and another one for trading fixed income securities would pay a participation fee for its equity platform calculated as described above and a participation fee for its fixed income platform as described in Appendix B.1 row C2.

- (2) If a specified regulated entity is recognized during the specified period, it must pay to the Commission, immediately upon recognition, designation etc., a participation fee for the remaining specified period. The participation fee owed to the Commission will be pro-rated based on the number of remaining complete months to March 31 subsequent to it being recognized, designated, etc. For example, if an exchange was recognized on January 15, 2016, it will owe to the Commission a pro-rated participation fee in the amount of \$5,000 for the two complete months remaining until March 31 (calculated as \$30,000 x 2/12). A form 13-502F7 must be filed with the pro-rated payment.

Continuing with the example above, the recognized exchange will also need to calculate the participation fee due before April 30, 2016 and file a second Form 13-502F7 with this payment. For the purpose of calculating its Canadian trading share, the exchange should use the actual Canadian trading share for the months of February and March 2016 and zero for the months before it received recognition (i.e. April 2015 to January 2016).

PART 6 – ACTIVITY FEES

- 6.1** Technical reports – Item A2 of Appendix C requires fee payment of \$2,500 for the filing of a technical report, including where a technical report is incorporated by reference into a prospectus. Staff consider that a technical report is incorporated by reference into a prospectus even if the incorporation is indirect; for example, the technical report is referenced in an annual information form that itself is included or incorporated in the prospectus.
- 6.2** Concurrent application by permitted individual – Item K4 of Appendix C imposes a fee of \$100 for an individual seeking approval as a permitted individual. Item K5 imposes a fee of \$200 for an individual changing his or her status to a representative of a registrant firm. If an individual makes a concurrent application for approval as a permitted individual and as a representative of a registrant firm, staff would expect a fee of \$200 in the aggregate.

PART 7 – LATE FEES

- 7.1** Late fees relating to Form 33-109F5 – Paragraph (e) to item A of Appendix D to the Rule provides for a late fee of \$100 per day to a maximum cap for each year. Form 33-109F5 is required to be filed for changes in registration information within the time periods specified in Parts 3 and 4 of NI 33-109. In some cases, registrants file the form merging a number of changes that have occurred and were required to be reported at different times. Staff will generally apply the late fee under paragraph (e) of Item A for each change reported on the F5 on the basis that a separate form was required to be filed in respect of each change.
- 7.2** Late fees under section 6.4 of the Rule for registrant firms – Appendix D to the Rule outlines additional fees payable by registrant firms for the late filing or delivery of certain forms or documents required under the Act. The Commission may consider the late filing or delivery of forms or documents when assessing the ongoing suitability for registration of a registrant firm.
- 7.3** Late filings for the purpose of amending Form 33-109F6 – For amendments to item 5.5 Bonding or insurance details on Form 33-109F6, registrant firms are expected to notify the regulator of any change to bonding or insurance details in accordance with section 12.2 of NI 31-103, including the renewal of an insurance policy. The Commission will not charge a late fee with respect to renewal of bonding or insurance policies. However, late notifications of any changes in insurer or coverage amounts are subject to the late fees outlined in the Rule.

**ONTARIO SECURITIES COMMISSION
COMPANION POLICY 13-503CP (COMMODITY FUTURES ACT) FEES**

PART 1 – PURPOSE OF COMPANION POLICY

- 1.1 Purpose of Companion Policy** – The purpose of this Companion Policy is to state the views of the Commission on various matters relating to OSC Rule 13-503 (*Commodity Futures Act*) Fees (the "Rule"), including an explanation of the overall approach of the Rule and a discussion of various parts of the Rule.

PART 2 – PURPOSE AND GENERAL APPROACH OF THE RULE

2.1 Purpose and general approach of the rule

- (1) The general approach of the Rule is to establish a fee regime that is consistent with the approach of OSC Rule 13-502 (the "OSA Fees Rule"), which governs fees paid under the *Securities Act*. Both rules are designed to create a clear and streamlined fee structure.
- (2) The fee regime of the Rule is based on the concepts of "participation fees" and "activity fees".

2.2 Participation fees

- (1) Registrant firms are required to pay participation fees annually.
- (2) Participation fees are designed to cover the Commission's costs not easily attributable to specific regulatory activities. The participation fee required of a person or company under Part 2 of the Rule is based on a measure of the person's or company's size, which is used as a proxy for its proportionate participation in the Ontario capital markets. In the case of a registrant firm, the participation fee is based on the firm's revenues attributable to its CFA activity in Ontario.

- 2.3 Application of participation fees** – Although participation fees are determined with reference to information from a financial year of the payor generally ending before the time of their payment, they are applied to the costs of the Commission of regulating the ongoing participation in Ontario's capital markets of the payor and other market participants.

- 2.4 Registered individuals** – The participation fee is paid at the firm level under the Rule. For example, a "registrant firm" is required to pay a participation fee, not an individual who is registered as a salesperson, representative, partner, or officer of the firm.

- 2.5 Activity fees** – Activity fees are generally charged where a document of a designated class is filed. Estimates of the direct cost of Commission resources expended in undertaking the activities listed in Appendix B of the Rule are considered in determining these fees (e.g., reviewing registration applications and applications for discretionary relief). Generally, the activity fee charged for filing a document of a particular class is based on the average cost to the Commission of reviewing documents of the class.

2.6 Registrants under the CFA and the *Securities Act*

- (1) A registrant firm that is registered both under the CFA and the *Securities Act* is exempted by section 2.1 of the Rule from the requirement to pay a participation fee under the Rule if it is current in paying its participation fees under the OSA Fees Rule. The registrant firm will include revenues derived from CFA activities as part of its revenues for purposes of determining its participation fee under the OSA Fees Rule.
- (2) A registrant firm that is registered both under the CFA and the *Securities Act* must pay activity fees under the CFA Rule even though it pays a participation fee under the OSA Fees Rule.

2.7 No refunds

- (1) The Rule provides the specific circumstances where the Commission is required to refund fees in subsections 2.3(3) of the Rule. This subsection allows for a refund where a registrant firm overpaid an estimated participation fee provided the request is made within the time the related form was required to be filed.
- (2) Generally, a person or company that pays a fee under the Rule is not entitled to a refund of that fee unless they meet the conditions set out in the rule and discussed in subsection (1) above. For example, there is no

refund available for an activity fee paid in connection with an action that is subsequently abandoned by the payor of the fee. Also, there is no refund available for a participation fee paid by a registrant firm whose registration is terminated later in the year for which the fee was paid.

- (3) While the Commission will also review requests for adjustments to fees paid in the case of incorrect calculations, unless there are exceptional circumstances, we will not generally issue a refund if a request is made more than 90 days after the fee was required to be paid.

2.8 Indirect avoidance of rule – The Commission may examine arrangements or structures implemented by a person or company and their affiliates that raise the suspicion of being structured for the purpose of reducing the fees payable under the Rule. For example, the Commission will review circumstances in which revenues from registrable activities carried on by a corporate group are not treated as revenues of a registrant firm, to assess whether the firm has artificially reduced the firm's specified Ontario revenues and, consequently, its participation fee.

2.9 Confidentiality of forms – The material filed under the Part 2 of the Rule will be kept confidential. The Commission is of the view that the material contains intimate financial, commercial and technical information and that the interests of the filers in non-disclosure outweigh the desirability of the principle that the material be available for public inspection.

PART 3 – PARTICIPATION FEES

3.1 Liability for participation fees – Participation fees are payable annually by registrant firms as defined in Section 1.1 of the Rule.

3.2 Filing forms under Section 2.3 – If the estimated participation fee paid under subsection 2.3(1) of the Rule by a registrant firm does not differ from its true participation fee determined under subsection 2.3(2), the registrant firm is not required to file either a Form 13-503F1 or a Form 13-503F2 under subsection 2.3(3) of the Rule.

3.3 Late fees – Section 2.5 of the Rule prescribes an additional fee if a participation fee is paid late. The Commission and the Director will, in appropriate circumstances, consider tardiness in the payment of fees as a matter going to the fitness for registration of a registrant firm.

3.4 "CFA activities" – A person or company must consider its CFA activities when calculating its participation fee. The Commission is of the view that these activities include, without limitation, trading in commodity futures contracts, carrying on the business of providing commodity futures contracts-related advice and portfolio management services involving commodity futures contracts.

3.5 Permitted deductions – Subsection 2.7 of the Rule permits certain deductions to be made for the purpose of calculating specified Ontario revenues for registrant firms. The purpose of these deductions is to prevent the "double counting" of revenues that would otherwise occur.

PART 4 – ACTIVITY FEES

4.1 Concurrent application by permitted individual – Item C4 of Appendix B imposes a fee of \$100 for an individual seeking approval as a permitted individual. Item C5 imposes a fee of \$200 for an individual changing his or her status from a non-trading or non-advising capacity to a trading or advising capacity. If an individual makes a concurrent application for approval as a permitted individual and as an individual registered to trade or advise on behalf of a registrant firm, staff would expect a fee of \$200 in the aggregate.

PART 5 – LATE FEES

5.1 Late fees relating to Form 33-506F5 – Paragraph (e) to item A of Appendix C to the Rule provides for a late fee of \$100 per day to a maximum cap for each year. Form 33-506F5 is required to be filed for changes in registration information within the time periods specified in Parts 3 and 4 of OSC Rule 33-506. In some cases, registrant firms file the form merging a number of changes that have occurred and were required to be reported at different times. Staff will generally apply the late fee under paragraph (e) of Item A for each change reported on the F5 on the basis that a separate form was required to be filed in respect of each change.

5.2 Late fees under section 3.3 of the Rule for registrant firms – Appendix C to the Rule outlines additional fees payable by registrant firms for the late filing or delivery of certain forms or documents required under the Act. The Commission may consider the late filing or delivery of forms or documents when assessing the ongoing suitability for registration of a registrant firm.

- 5.3 Late filings for the purpose of amending Form 33-506F6** – For amendments to item 5.5 *Bonding or insurance details* on Form 33-506F6, registrant firms are expected to notify the regulator of any change to bonding or insurance details, including the renewal of an insurance policy. The Commission will not charge a late fee with respect to renewal of bonding or insurance policies. However, late notifications of any changes in insurer or coverage amounts are subject to the late fees outlined in the Rule.

FORM 13-503F1
(Commodity Futures Act) PARTICIPATION FEE CALCULATION

General Instructions

1. This form must be completed by firms registered under the *Commodity Futures Act* but not under the *Securities Act*. It must be returned to the Ontario Securities Commission by December 1 each year, as required by section 2.2 of OSC Rule 13-503, 503 (the Rule), except in the case where firms register after December 1 in a calendar year. In this exceptional case, this form must be filed within 60 days of registration.
2. The completion of this form will serve as an application for the renewal of both the firm and all its registered individuals wishing to renew under the *Commodity Futures Act*.
3. IIROC members must complete Part I of this form. All other registrant firms must complete Part II.
4. IIROC members may refer to Statement E of the Joint Regulatory Financial Questionnaire and Report for guidance.
5. If a firm's permanent establishments are situated only in Ontario, all of the firm's total revenue for the previous financial year is attributed to Ontario. If permanent establishments are situated in Ontario and elsewhere, the percentage attributed to Ontario for a previous financial year will ordinarily be the percentage of the firm's taxable income that is allocated to Ontario for Canadian income tax purposes for the same financial year. For firms that do not have a permanent establishment in Ontario, the percentage attributable to Ontario will be based on the proportion of total revenues generated from CFA activities in Ontario.
6. All figures must be expressed in Canadian dollars. All figures other than the participation fee must be rounded to the nearest thousand.
7. Information reported on this form must be certified by the chief compliance officer to attest to its completeness and accuracy.

**ONTARIO SECURITIES COMMISSION
COMPANION POLICY 13-503CP (COMMODITY FUTURES ACT) FEES**

PART 1 – PURPOSE OF COMPANION POLICY

- 1.1 Purpose of Companion Policy** – The purpose of this Companion Policy is to state the views of the Commission on various matters relating to OSC Rule 13-503 (*Commodity Futures Act*) Fees (the "Rule"), including an explanation of the overall approach of the Rule and a discussion of various parts of the Rule.

PART 2 – PURPOSE AND GENERAL APPROACH OF THE RULE

2.1 Purpose and general approach of the rule

- (1) The general approach of the Rule is to establish a fee regime that is consistent with the approach of OSC Rule 13-502 (the "OSA Fees Rule"), which governs fees paid under the *Securities Act*. Both rules are designed to create a clear and streamlined fee structure.
- (2) The fee regime of the Rule is based on the concepts of "participation fees" and "activity fees".

2.2 Participation fees

- (1) Registrant firms are required to pay participation fees annually.
- (2) Participation fees are designed to cover the Commission's costs not easily attributable to specific regulatory activities. The participation fee required of a person or company under Part 2 of the Rule is based on a measure of the person's or company's size, which is used as a proxy for its proportionate participation in the Ontario capital markets. In the case of a registrant firm, the participation fee is based on the firm's revenues attributable to its CFA activity in Ontario.

- 2.3 Application of participation fees** – Although participation fees are determined with reference to information from a financial year of the payor generally ending before the time of their payment, they are applied to the costs of the Commission of regulating the ongoing participation in Ontario's capital markets of the payor and other market participants.

- 2.4 Registered individuals** – The participation fee is paid at the firm level under the Rule. For example, a "registrant firm" is required to pay a participation fee, not an individual who is registered as a salesperson, representative, partner, or officer of the firm.

- 2.5 Activity fees** – Activity fees are generally charged where a document of a designated class is filed. Estimates of the direct cost of Commission resources expended in undertaking the activities listed in Appendix B of the Rule are considered in determining these fees (e.g., reviewing registration applications and applications for discretionary relief). Generally, the activity fee charged for filing a document of a particular class is based on the average cost to the Commission of reviewing documents of the class.

2.6 Registrants under the CFA and the *Securities Act*

- (1) A registrant firm that is registered both under the CFA and the *Securities Act* is exempted by section 2.1 of the Rule from the requirement to pay a participation fee under the Rule if it is current in paying its participation fees under the OSA Fees Rule. The registrant firm will include revenues derived from CFA activities as part of its revenues for purposes of determining its participation fee under the OSA Fees Rule.
- (2) A registrant firm that is registered both under the CFA and the *Securities Act* must pay activity fees under the CFA Rule even though it pays a participation fee under the OSA Fees Rule.

2.7 No refunds

- (1) The Rule provides the specific circumstances where the Commission is required to refund fees in subsections 2.3(3) of the Rule. This subsection allows for a refund where a registrant firm overpaid an estimated participation fee provided the request is made within the time the related form was required to be filed.
- (2) Generally, a person or company that pays a fee under the Rule is not entitled to a refund of that fee unless they meet the conditions set out in the rule and discussed in subsection (1) above. For example, there is no

refund available for an activity fee paid in connection with an action that is subsequently abandoned by the payor of the fee. Also, there is no refund available for a participation fee paid by a registrant firm whose registration is terminated later in the year for which the fee was paid.

- (3) While the Commission will also review requests for adjustments to fees paid in the case of incorrect calculations, unless there are exceptional circumstances, we will not generally issue a refund if a request is made more than 90 days after the fee was required to be paid.

2.8 Indirect avoidance of rule – The Commission may examine arrangements or structures implemented by a person or company and their affiliates that raise the suspicion of being structured for the purpose of reducing the fees payable under the Rule. For example, the Commission will review circumstances in which revenues from registrable activities carried on by a corporate group are not treated as revenues of a registrant firm, to assess whether the firm has artificially reduced the firm's specified Ontario revenues and, consequently, its participation fee.

2.9 Confidentiality of forms – The material filed under the Part 2 of the Rule will be kept confidential. The Commission is of the view that the material contains intimate financial, commercial and technical information and that the interests of the filers in non-disclosure outweigh the desirability of the principle that the material be available for public inspection.

PART 3 – PARTICIPATION FEES

3.1 Liability for participation fees – Participation fees are payable annually by registrant firms as defined in Section 1.1 of the Rule.

3.2 Filing forms under Section 2.3 – If the estimated participation fee paid under subsection 2.3(1) of the Rule by a registrant firm does not differ from its true participation fee determined under subsection 2.3(2), the registrant firm is not required to file either a Form 13-503F1 or a Form 13-503F2 under subsection 2.3(3) of the Rule.

3.3 Late fees – Section 2.5 of the Rule prescribes an additional fee if a participation fee is paid late. The Commission and the Director will, in appropriate circumstances, consider tardiness in the payment of fees as a matter going to the fitness for registration of a registrant firm.

3.4 "CFA activities" – A person or company must consider its CFA activities when calculating its participation fee. The Commission is of the view that these activities include, without limitation, trading in commodity futures contracts, carrying on the business of providing commodity futures contracts-related advice and portfolio management services involving commodity futures contracts.

3.5 Permitted deductions – Subsection 2.7 of the Rule permits certain deductions to be made for the purpose of calculating specified Ontario revenues for registrant firms. The purpose of these deductions is to prevent the "double counting" of revenues that would otherwise occur.

PART 4 – ACTIVITY FEES

4.1 Concurrent application by permitted individual – Item C4 of Appendix B imposes a fee of \$100 for an individual seeking approval as a permitted individual. Item C5 imposes a fee of \$200 for an individual changing his or her status from a non-trading or non-advising capacity to a trading or advising capacity. If an individual makes a concurrent application for approval as a permitted individual and as an individual registered to trade or advise on behalf of a registrant firm, staff would expect a fee of \$200 in the aggregate.

PART 5 – LATE FEES

5.1 Late fees relating to Form 33-506F5 – Paragraph (e) to item A of Appendix C to the Rule provides for a late fee of \$100 per day to a maximum cap for each year. Form 33-506F5 is required to be filed for changes in registration information within the time periods specified in Parts 3 and 4 of OSC Rule 33-506. In some cases, registrant firms file the form merging a number of changes that have occurred and were required to be reported at different times. Staff will generally apply the late fee under paragraph (e) of Item A for each change reported on the F5 on the basis that a separate form was required to be filed in respect of each change.

5.2 Late fees under section 3.3 of the Rule for registrant firms – Appendix C to the Rule outlines additional fees payable by registrant firms for the late filing or delivery of certain forms or documents required under the Act. The Commission may consider the late filing or delivery of forms or documents when assessing the ongoing suitability for registration of a registrant firm.

5.3 Late filings for the purpose of amending Form 33-506F6 – For amendments to item 5.5 *Bonding or insurance details* on Form 33-506F6, registrant firms are expected to notify the regulator of any change to bonding or insurance details, including the renewal of an insurance policy. The Commission will not charge a late fee with respect to renewal of bonding or insurance policies. However, late notifications of any changes in insurer or coverage amounts are subject to the late fees outlined in the Rule.
