Re: Proposed Changes Resulting From The Registered Reform Project

Dear Mr. Oberg:

I have been made aware of the Registration Reform Project legislation, which would seem to unfairly punish this sector of the investment industry through excessive regulation and added costs.

I also oppose the legislation because:

- there is no apparent need for it in Alberta
- it is so "un Albertan" in it's content (non-entrepreneurial)
- British Columbia , with a similar investment climate is not planning to embrace it

As an investor in this sector of the industry over the past eight years, I am fully aware of the risks involved, but see no reason for the proposed change.

Please work against the proposed Registered Reform Project legislation.

Thank you.

Sincerely,

Don Burns
