

To Mr. John Stevenson
Ontario Securities Commission,

I strongly disagree with the proposed change for "exempt market securities". I should in no way be required to divulge any my personal financial information to a sales person, or company. It is at my discretion as to whether I want to invest any portion or all of my money. After all it is **my** money. "Know Your Client" forms are unnecessary, unwanted, and a total invasion of our **right to privacy**.

I trust you will voice these concerns on behalf of all those who hold this opinion.

Sincerely,
Don and Janice Collier
