2. The capitalization of income trusts or investment funds that have no investment fund manager, which are listed or posted for trading, or quoted on, a marketplace in either or both of Canada or the U.S. should be determined with reference to the formula for Class 1 Reporting Issuers. 7. Where the securities of a class or series of securities of a Class 3 Reporting Issuer are listed on more than one exchange, the published closing market prices shall be those on the marketplace on which the highest volume of the class or series of securities were traded in the relevant financial year.

2. The components of revenue reported in each Part should be based on the same principles as the comparative statement of income which is prepared in accordance with generally accepted accounting principles ("GAAP"), except that revenues should be reported on an unconsolidated basis. It is recognized that the components of the revenue classification may vary between firms. However, it is important that each firm be consistent between periods.

**ONTARIO SECURITIES COMMISSION
COMPANION POLICY 13-502CP
FEES**

PART 1 PURPOSE OF COMPANION POLICY

- 1.1 Purpose of Companion Policy** – The purpose of this Companion Policy is to state the views of the Commission on various matters relating to Rule 13-502 Fees (the “Rule”), including
- (a) an explanation of the overall approach of the Rule;
 - (b) explanation and discussion of various parts of the Rule; and
 - (c) examples of some matters described in the Rule.

PART 2 PURPOSE AND GENERAL APPROACH OF THE RULE

2.1 Purpose and General Approach of the Rule

- (1) The general approach of the Rule is to establish a fee regime that accomplishes three primary purposes – to reduce the overall fees charged to market participants from what existed previously in Ontario, to create a clear and streamlined fee structure and to adopt fees that accurately reflect the Commission’s costs of providing services.
- (2) The fee regime implemented by the Rule is based on the concept of “participation fees” and “activity fees”.

2.2 Participation Fees

- (1) Participation fees generally are designed to represent the benefit derived by market participants from participating in Ontario’s capital markets. Reporting issuers, registrant firms and unregistered investment fund managers are required to pay participation fees annually. The participation fee is based on a measure of the market participant’s size, which is intended to serve as a proxy for the market participant’s use of the Ontario capital markets. The amounts of the participation fees have been based on the cost of a broad range of regulatory services that cannot be practically or easily attributed to individual activities or entities. Participation fees replace most of the continuous disclosure filing fees and other activity fees formerly charged to market participants under the previous fees regime.
- (2) The Rule provides for
 - (a) corporate finance participation fees, which are applicable to reporting issuers other than most investment funds; and
 - (b) capital markets participation fees, which are applicable to registrant firms and unregistered investment fund managers.

- 2.3 Activity Fees** - Activity fees are designed to represent the direct cost of Commission staff resources expended in undertaking certain activities requested of staff by market participants, for example in connection with the review of prospectuses, applications for discretionary relief or the processing of registration documents. Market participants are charged activity fees only for activities undertaken by staff at the request of the market participant. Activity fees are charged for a limited number of activities only and are flat rate fees based on the average cost to the Commission of providing the service.

2.4 No Refunds

- (1) Generally speaking, a person or company that pays a fee under the Rule is not entitled to a refund of that fee. For example, there is no refund available for an activity fee paid in connection with an action that is subsequently abandoned by the payor of the fee. Also, there is no refund available for a participation fee paid by a reporting issuer, registrant firm or unregistered investment fund manager that loses that status later in the financial year for which the fee was paid.
- (2) An exception to the principle discussed in subsection (1) is provided for in subsection 2.3(3) of the Rule. This provision allows for the adjustment of a participation fee paid by a Class 2 reporting issuer based on a good faith estimate of its capitalization as at the end of a financial year if its financial statements are not available.

- (3) The Commission will also consider requests for adjustments to fees paid in the case of incorrect calculations made by fee payors.

PART 3 CORPORATE FINANCE PARTICIPATION FEES

3.1 Application to Investment Funds - Section 2.1 of the Rule excludes investment funds from the application of Part 2 of the Rule, except if they do not have an investment fund manager. An investment fund that has an investment fund manager does not have to pay corporate finance participation fees because its manager will be paying the capital markets participation fees in respect of revenues generated from managing the investment fund. However, if the investment fund does not have an investment fund manager, the fund is made subject to the corporate finance participation fees to ensure that it does not have an unfair advantage over other reporting issuers that are required to pay such fees.

3.2 Fees Payable in Advance

- (1) Section 2.2 of the Rule prescribes the annual payment of a participation fee by each reporting issuer other than those that are exempt from this fee under section 2.1 of the Rule. Subsection 2.2(1) of the Rule requires the payment of a fee, for each of its financial years, to be based on the capitalization of the reporting issuer as at the end of its previous financial year. Subsection 2.3(1) of the Rule requires the payment of this participation fee to be no later than the date on which the reporting issuer's annual financial statements are required to be filed.
- (2) The Commission notes that the effect of sections 2.2 and 2.3 of the Rule is that a participation fee is payable in advance by a reporting issuer for its current financial year, even though the fee is based on the capitalization of the reporting issuer at the end of its previous financial year.
- (3) Section 2.8 of the Rule pertains to the payment of a participation fee for a new reporting issuer. This section is consistent with the principle that a participation fee is payable in advance. A new reporting issuer is required to pay a participation fee when it becomes a reporting issuer for the remainder of its current financial year; the reporting issuer is required to calculate an annual participation fee in accordance with the requirements of section 2.8 of the Rule, and pay a proportionate amount based on the number of months left in the financial year.
- (4) A person or company that ceases to be a reporting issuer in a financial year is not entitled to any refund of the participation fee payable for that financial year, as discussed in subsection 2.4(1) of this Policy.

3.3 Determination of Corporate Debt Market Value

- (1) Section 2.5 of the Rule requires the calculation of the capitalization of a Class 1 reporting issuer to include the market value of each class or series of corporate debt or preferred shares outstanding as at the end of a financial year of the reporting issuer.
- (2) Paragraph 2.5(b) of the Rule requires the reporting issuer to determine the market value of the corporate debt or preferred shares. The Commission recognizes that the determination of the market value of corporate debt or preferred shares is a more difficult task than the determination of the market value of equity securities, which are usually listed and for which trading prices are generally readily available. Therefore, the Commission wishes to allow reporting issuers to use the best available source for pricing its corporate debt and preferred shares. The Commission notes that, at the time of this Policy, the best available source may be one or more of
 - (a) pricing services;
 - (b) quotations from one or more dealers; or
 - (c) transaction prices on recent transactions.

3.4 "Green Shoes" and Over-Allotment Options – Paragraph 2.8(b) of the Rule requires that the participation fee for Class 1 and Class 3 reporting issuers be based on the issue price of the securities being distributed under a prospectus. The Commission notes that this calculation should assume the issue of any securities under "green shoes" or over-allotment options.

PART 4 CAPITAL MARKET PARTICIPATION FEES

4.1 Fees Payable in Advance

- (1) As with corporate finance participation fees, capital market participation fees are paid in advance by a registrant firm or an unregistered investment fund manager. The discussion contained in section 3.2 of this Policy is relevant to capital market participation fees as well as corporate finance participation fees.
- (2) Subsection 3.2(1) of the Rule requires all registrant firms to pay a participation fee on the same date, December 31 in each year. This participation fee is paid for the current financial year of the registrant firm, based on the specified Ontario revenues for its previous financial year, even if the financial year of the registrant firm ends on December 31. Therefore, a registrant firm with a financial year end of December 31 will pay its participation fee on December 31 of the following year. So, in connection with the financial year end of December 31, 2001, the participation fee for the financial year of January 1, 2002 to December 31, 2002 will be paid on December 31, 2002, based on the specified Ontario revenues of the registrant firm for the financial year ended December 31, 2001.
- (3) A registrant firm that has a financial year end of June 30 will still pay its participation fee on December 31 of each year. In connection, for instance, with the financial year end of June 30, 2002, the participation fee will be paid on December 31, 2002 for the financial year of the registrant firm of July 1, 2002 to June 30, 2003, with the calculation of the fee being based on the specified Ontario revenues of the registrant firm for the financial year ended June 30, 2002.

4.2 Late Fees – Section 3.7 of the Rule prescribes the payment of additional fees in case of overdue payment of fees. The Commission notes that it will, in appropriate circumstances, consider tardiness in the payment of fees as a matter going to the fitness for registration of a registrant firm in considering the registration status of that registrant firm. The Commission may also consider other appropriate measures in the case of late payment of fees by an unregistered investment fund manager, such as prohibiting the delinquent unregistered investment fund manager from continuing to manage any investment fund or cease trading the investment funds managed by that manager.

PART 5 ACTIVITY FEES

5.1 Late Filing Fee

- (1) Item G.2 of Appendix C of the Rule lists the documents the late filing of which will be subject to a fee of \$100 per business day, up to a maximum of \$5,000 for all documents within one financial year. The last item in the list refers to “any other document, report or form required by Ontario securities law to be filed within a prescribed period”.
- (2) It is noted that the phrase “Ontario securities law” includes “a decision of the Commission or a Director to which [a] person or company is subject”. Some orders or decisions of the Commission or a Director have granted exemptions to investment funds from certain conflict-of-interest provisions of the Act or National Instrument 81-102, on the condition that reports of certain transactions are filed on SEDAR within a prescribed period. The purpose of this condition would ensure transparency in such transactions. Market participants are reminded that the fee for late filing contained in the Rule would be applicable to those filings, as well as to filings required under the Act, the Regulation or the Rules.

5.2 Concurrent Filings under Securities Act and Commodity Futures Act - With respect to the registration-related activity fees, if a concurrent application for registration or for an exemption from a registration-related requirement is made pursuant to both the Securities Act and the CFA, there will only be one activity fee levied for the concurrent applications. Where the applications are not made concurrently, the appropriate activity fee payable pursuant to either the Securities Act or the CFA will be charged. These matters will be dealt with in a fees rule made under the CFA.

5.3 Permitted Deductions

- (1) For the purpose of calculating specified Ontario revenues that would be the basis for determining the participation fee payable by a registrant firm that is not a member of the IDA or MFDA or an unregistered investment fund manager, subsections 3.6(2) and (3) permit certain deductions to be made. These deductions are intended to prevent “double counting” of revenues that would otherwise occur in the absence of the deductions.
- (2) It is noted that the permitted deduction of administration fees is limited solely to those that represent the recovery of costs from investment funds for operating expenses paid on their behalf by the registrant firm or unregistered investment fund manager. No registrant firm or unregistered investment fund manager may make a deduction for more than the amount of administration fees it has paid on behalf of an investment fund managed by the registrant firm or unregistered investment fund manager.

- 5.4 Investment Funds** - Section 4.2 of the Rule provides for the payment of only one fee for an application made by or on behalf of investment funds in an investment fund family, if the application pertains to each investment fund. It is contemplated that discretionary relief required by investment funds in an investment fund family in circumstances that are the same for all of them can be sought by way of a single application.
- 5.5 Calculation Examples** - Appendices A through E contain some examples of how fees would be calculated under the Rule.
